**SUMMARY**

Motivated Computer Science student with hands-on experience in mobile app development, cloud deployment, and system administration. Strong interest in software engineering, mobile development, and cloud technologies. Fast learner with a self-driven mentality and experience building real-world projects independently.

**TECHNICAL SKILLS**

**Languages:** Python, Dart, SQL, JavaScript (basic)

**Frameworks:** Flutter, Firebase, Nextcloud, Node.js (basic)

**Cloud & DevOps:** Docker, GitHub Pages, Git, AWS (S3, EC2, SNS, SQS, Lambda — learner-level), Cloudflare

**Databases:** MySQL, Firestore

**Tools:** Xcode, Android Studio, VS Code, GitHub, Postman

**PROJECTS****Global Messaging App (Flutter + Firebase + Twilio)**

- Built a cross-platform messaging app with real-time chat, timestamps, read receipts, and Google Sign-In authentication.
- Integrated Firebase Authentication and Firestore for messaging and user data storage.
- Explored Twilio integration for real SMS/voice features.

**Self-Hosted Cloud Server (Nextcloud + Docker + Cloudflare)**

- Deployed a personal cloud server on a MacBook using Docker containers.
- Configured HTTPS, DNS records, and remote access using Cloudflare Tunnel.

**Workout Tracking Database (MySQL)**

- Designed a relational database for tracking users, exercises, workouts, and goals.

**Links Page Website (HTML/CSS)**

- Built and deployed a clean, responsive link hub using HTML, CSS, GitHub Pages, and Cloudflare DNS.

**EXPERIENCE****Teaching Assistant — BYU-Idaho**

- Assisted students in programming concepts, debugging, and assignment structure.

**Volunteer Representative — The Church of Jesus Christ of Latter-day Saints**

- Served full-time for 2 years in leadership, teaching, and communication roles.

**EDUCATION**

Brigham Young University–Idaho

Bachelor of Science in Computer Science

Expected Graduation: 2027
